## SUMMARY

Proficient in ReactJS development with a focus on creating responsive frontend interfaces for digital platforms. Designed and built a digital account marketplace, emphasizing clean UI/UX and component-based architecture to facilitate future backend integration. Developed a fully responsive wedding website utilizing the MERN stack, which included a dynamic RSVP form and an interactive media gallery, showcasing skills in web application deployment and cross-browser compatibility.

## SKILLS

- ReactJS development
- Responsive design
- Component architecture
- MERN stack deployment
- Tailwind CSS implementation
- Web application deployment
- Cross-browser compatibility
- Version control
- Problem solving
- Code optimization
- Responsive web design
- Git version control

# Chidubem Umeh R.

## EXPERIENCE

April 2025 - May 2025

Front End Developer Personal Project | Takoradi, Ghana

- Built a responsive frontend application for sending bulk emails using ReactJS. Designed a clean user interface for composing messages, entering multiple recipient emails, and triggering batch sends via Brevo (Sendinblue) API. Focused on efficient form handling, dynamic input fields, and real-time feedback on email status.

### Features Include:

- Bulk email input form with validation.
- Dynamic message preview and customization.
- Custom SMTP server integration for sending emails.
- History Tab for sent emails
- User-friendly and responsive design

March 2025 - March 2025

Front End Developer Freelancer | Lagos, Nigeria

- Designed and built a responsive frontend interface for a digital account marketplace using ReactJS.
- Focused on clean UI/UX with mobile responsiveness and component-based architecture to support future backend integration.

November 2024 - January 2025

Full Stack Web Developer Freelancer | Takoradi, Ghana

- Built and deployed a fully responsive wedding website using the MERN stack to manage event RSVPs, guest interactions, and media sharing.
- Developed a dynamic multi-step RSVP form using React and Framer Motion, supporting guest attendance, well-wishing messages, and real-time form validation.
- Designed a user-friendly media gallery (RECAP page) with photo/video filtering, carousel navigation, and responsive layout using Tailwind CSS.
